

## PRESS RELEASE

### ***fundeye.com* welcomes PMG Investment Solutions to its fund platform**

**Geneva, 12 November 2021-** *fundeye.com* is pleased to announce that **PMG Investment Solutions** is the latest fund management company to have selected *fundeye.com* as its preferred platform for the publication and dissemination of PMG's fund data and documents

**Raoul Dobal, COO and Senior Partner at PMG**, on selecting *fundeye.com* as its preferred platform: *"It feels great to hand over the responsibility for the publication and dissemination of our data and documents to such a credible company that shares the same strong core values as ours. fundeye.com's commitment to working closely with us earned our trust and confidence and we look forward to building a long-term relationship with the company. We can now focus on generating even more value for our investors."*

**Anita Sargent, Director at fundeye.com:** *"We are extremely pleased to partner with PMG. Today's funds value chain is dependent on the flow of static and dynamic data between a complex web of intermediaries, all of whom are required to record and reconcile the same data sets. This duplication and complexity creates market friction, increases costs and risk, and stifles corporate resources. By using only primary sources for data and documents, we remove complexity and the roadblocks to efficiency and accuracy. We replace it with simplicity so that fund companies can re-focus their resources on servicing their investors."*

### **About PMG**

PMG Fonds Management AG ("PMG"), based in Zug Switzerland, is an independent Swiss fund management and asset management boutique.

As an owner-managed company, PMG thinks entrepreneurially through and through to meet the highest client demands. Customer focus and partnership-based thinking and acting are the central prerequisites for PMG's success.

PMG currently manages client assets of around CHF 3.7 billion in Switzerland, Luxembourg, and Malta [www.pmg.swiss/en/](http://www.pmg.swiss/en/)
